PROFESSIONAL SUMMARY

Frontend Developer with 2 years 10 months of professional experience developing scalable web and mobile applications using React.js, Angular, Next.js, React Native, TypeScript, and JavaScript (ES6+). Strong expertise in building reusable UI components, responsive interfaces, integrating REST APIs and WebSockets, and managing application state using Redux, React Query (TanStack Query), Context API, and RxJS. Experienced in developing enterprise applications across logistics, crypto trading and betting, travel booking, education, HRMS, visitor management, and enterprise administration domains. Proficient in API-driven development, cross-browser compatibility, debugging, unit testing, production issue resolution, and Agile development practices, with a focus on writing clean, maintainable, and reliable code.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Angular, Next.js, React Native, Redux, Context API, React Query (TanStack Query), RxJS, Axios

Styling & UI: HTML, CSS, SCSS, Tailwind CSS, Bootstrap, Material UI, Angular Material, Ant Design (AntD), PrimeNG

Testing: Jest, React Testing Library (RTL), Jasmine, Karma

Tools & Platforms: Git, GitHub, GitLab, VS Code, Postman, Swagger, Jira

WORK EXPERIENCE

Software Developer — VertexPlus Technologies Limited, Jaipur — November 2025 – August 2026

XSwift – Logistics, Shipment & Fleet Management Platform:

- Developed and maintained 18+ business modules using Angular, TypeScript, Bootstrap, and SCSS, covering trip planning, route management, fleet operations, shipment workflows, ePOD, dashboards, and reports.
- Integrated REST APIs to support shipment tracking, fleet management, customer operations, and transportation workflows.
- Implemented new features, enhanced existing functionalities, and resolved production issues to maintain application stability.
- Wrote and maintained unit tests using Jasmine and Karma to validate application functionality and business logic.

Frontend Developer — InfoAnts LLP, Noida — December 2024 – October 2025

FireExch – Real-Time Crypto Trading & Betting Platform:

- Developed 15+ frontend modules using React.js, TypeScript, and Tailwind CSS, covering KYC, user management, wallets, betting, transactions, reports, notifications, and administration.
- Integrated REST APIs using Axios and React Query, and implemented WebSocket communication for real-time betting updates, odds, market data, and wallet-related information.

Backpacker - Tour Booking & Travel Management Platform:

- Developed 6+ modules using React.js, Next.js, TypeScript, and Tailwind CSS, including Tour Management, Destination Management, Travel Packages, Itineraries, Blog Management, and Promotions.
- Integrated REST APIs for dynamic data management and developed reusable components for API-driven workflows, responsive interfaces, frontend debugging, API issue resolution, and cross-browser compatibility. Built reusable components and API-driven workflows for managing tours, destinations, travel packages, itineraries, blogs, and promotional content.

QGen - AI-Based Education & Question Generation Platform:

- Developed 6+ modules using Angular, TypeScript, and Tailwind CSS, including Question Templates, Subject Management, Chapter Management, Topic Management, Difficulty Levels, and Educational Content Management.
- Integrated REST APIs and implemented dynamic data-driven workflows for content creation, management, validation, and retrieval across education platform modules.

Junior Frontend Developer — Cynosure Technology Private Limited, Jaipur — October 2023 – November 2024

Timelabs HRMS – SaaS-Based Client HR Management Platform:

- Developed 8+ modules using Angular and React.js, including Employee Onboarding, Employee Self-Service (ESS), Attendance Management, Leave Management, Payroll, Helpdesk, Visitor Management, and HR Operations.
- Integrated REST APIs and WhatsApp Chatbot workflows for attendance updates, leave requests, employee data, and HR service operations.

Timelabs ESS Mobile Application – Employee Self-Service App:

- Developed a React Native application for Android and iOS with 8+ modules, including Attendance, Leave Management, Employee Profile, Notifications, Holiday Calendar, Salary Details, HR Requests, and Employee Information.
- Integrated REST APIs and built reusable React Native components for Android and iOS.

Vizitrac Mobile Application – Visitor Management App:

- Developed a React Native visitor management application with 5+ modules, including Visitor Registration, Check-in/Check-out, Approval Management, Visitor Tracking, and Notifications.
- Integrated REST APIs and developed reusable mobile UI components to support digital visitor registration, approval, tracking, and notification workflows.

CTPL Console – Internal Enterprise Admin Dashboard:

- Developed a React.js administration dashboard with 10+ modules, including Client Management, Subscription Management, User Management, Role Management, Permissions, Access Control, and Platform Configuration.
- Integrated REST APIs and developed reusable React components for client, user, subscription, and platform configuration workflows.

EDUCATION

Master of Computer Applications (MCA) — Suresh Gyan Vihar University, Jaipur, Rajasthan | January 2026 – Present

Bachelor of Computer Applications (BCA) — Compucom Institute of Technology and Management, Jaipur, Rajasthan | August 2021 – July 2024
